SAFOICC/Turnure/ua/79079/24Oct67

OCT 25 1967

Dear Mrs. [REDACTED]

This replies to your telephone query to this office on October 23 regarding the unidentified flying objects you observed over southeast Washington the nights of October 21-22 and 22-23.

A check with Andrews Air Force Base reveals that the base was supporting a rather sizeable Army exercise on those two nights. Helicopters in formations of two were taking off every three minutes, and planes were taking off every five minutes throughout most of the two nights in question. You may have seen lights from some of the aircraft being used in the exercise. The UFO Investigator at Andrews had no other reports of unidentified flying objects on either of the two nights in question.

Thank you for your interest in the Air Force project concerning unidentified flying objects.

Sincerely,

DAVID L. STILES, Major, USAF  
Acting Chief, Civil Branch  
Community Relations Division  
Office of Information

Mrs. [REDACTED]

TYPED COMMENTS MADE BY DR. J. ALLEN HYNEK ON <sup>11</sup>JUNE 1968

DENVER, COLORADO

31 October 1967

Evaluation should be changed to "Insufficient Information"--  
besides this is another one witness case! Further, 117 was not returned.  
Whole thing seems unreliable. eg. "10 feet diameter held at arm's  
length!!!"

Finally, reported by a 20 yr. old lad. Gross lack of information  
bits for the input.

31. 10 July 1967, Azalea, Mississippi.

See attached supplemental sheet B.

32. 11 July 1967, Macon, Georgia.

Temporarily misplaced. Check to see whether this has any relation to the sighting the previous day in Azalea, Mississippi.

33. 25 July 1967, Manchester, New Hampshire

The only Manchester, New Hampshire case I have is for a different date.

34. 12 October 1967, Ocala County, Florida.

Although this had four witnesses, the data are very poor. A balloon is ruled out because of wind at all levels. Two objects, one trailing the other, nighttime observation, went from the northern to the southern horizon in three minutes. Anyone of three evaluations: (1) insufficient data (2) probable aircraft (3) possible unknown.

35. 31 October 1967, Denver, Colorado.

Do not have in my files. Will do in Dayton.

Chief, Aerial Phenomena Office  
Headquarters Foreign Technology Division  
Wright-Patterson Air Force Base, Ohio

Dear Major Quintanilla:

On the night of October 31st there were no unidentified lights or other aerial phenomena reported to this office. This being a large hub center for the airlines and for general aviation there were undoubtedly numerous aircraft in the vicinity of the Denver Federal Center. To our knowledge there were no balloons anywhere in the Denver area.

Sincerely,

Gordon L. Paulson  
Assistant Director of Aviation
